TOOLS REQUIRED

- T25 and T30 Torx bits
- 10 mm socket
- Wheel-removal tools
- Plastic trim / prying tool
- Phillips screwdriver

IMPORTANT

Installation should be completed by a professional or experienced technician. Can Auto Performance is not responsible for damage caused by incorrect installation.

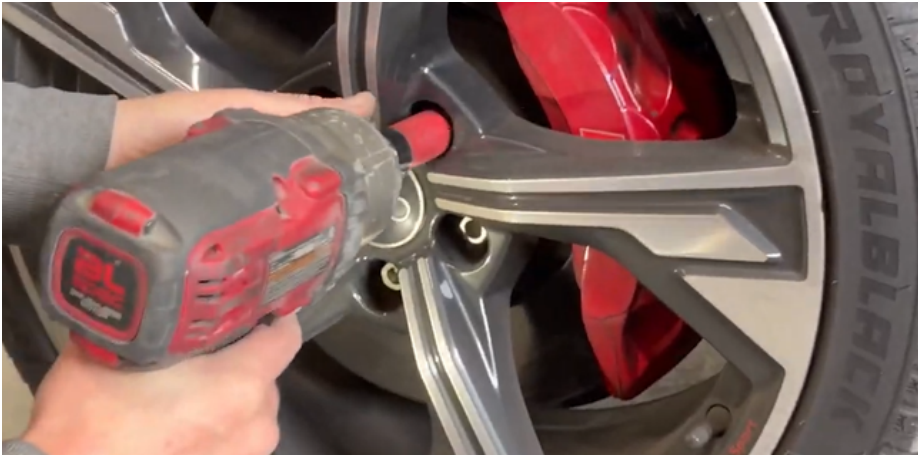

INSTALLATION GUIDE

CAP Front Bumper | B9.5 Audi RS4
Bumper - V1 - 2020-2025 B9.5 Audi
A4/S4

1

REMOVE THE FRONT WHEELS

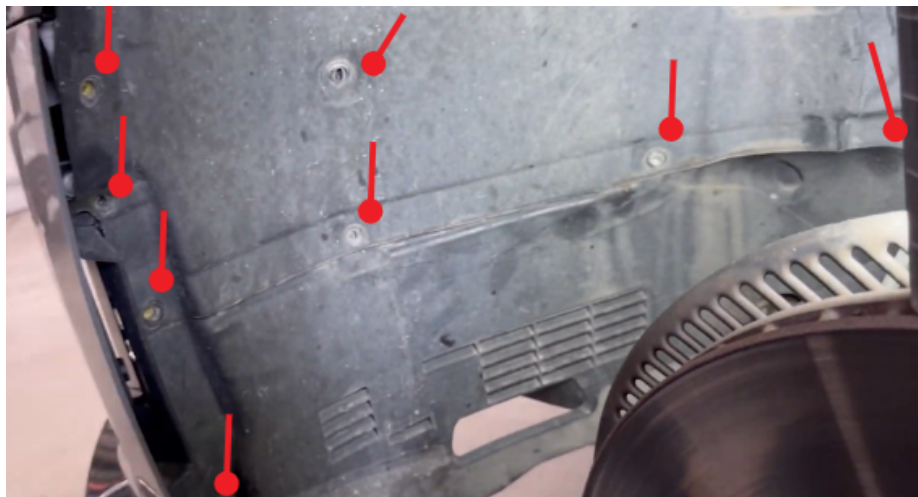

Remove the front wheels from both sides to gain access to the wheel-well fasteners.

2

REMOVE THE FRONT FENDER-LINER SCREWS

Using a T25 Torx bit, remove the eight screws securing the front portion of each fender liner.

3

REMOVE THE BOLTS AND CLIP

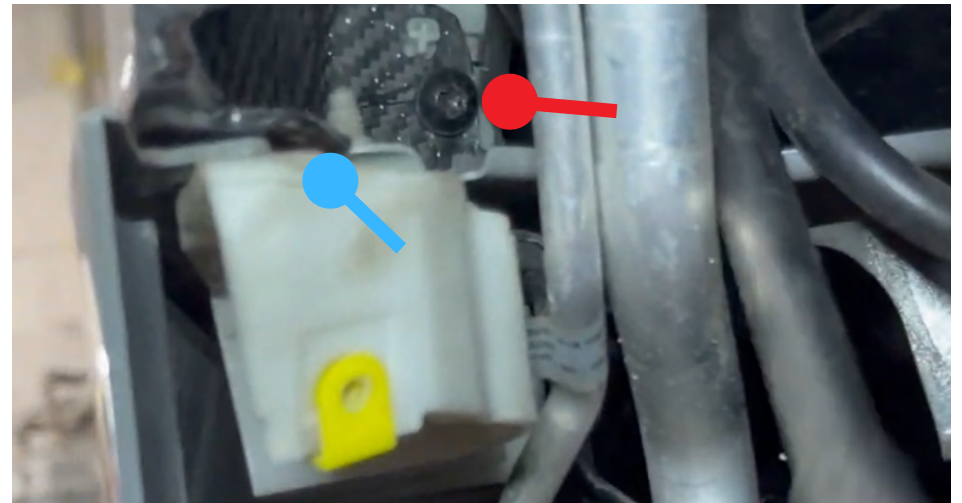

Remove the two 10 mm nuts (red arrow) from the fender-liner area and release the black retaining clip (blue arrow).

4

RELEASE THE BUMPER-SIDE SCREWS

Pull the fender liner slightly away. Release the clip connecting the bumper to the fender (blue arrow), then remove the T25 screw located behind it (red screw).

Bumper - V1 - 2020-2025 B9.5 Audi
A4/S4

5

REMOVE THE LOWER FASTENERS

Remove the four T30 fasteners (red arrow) and three T25 fasteners (blue arrow) from the underside of the bumper.

6

REMOVE THE LATCH AND SHROUD

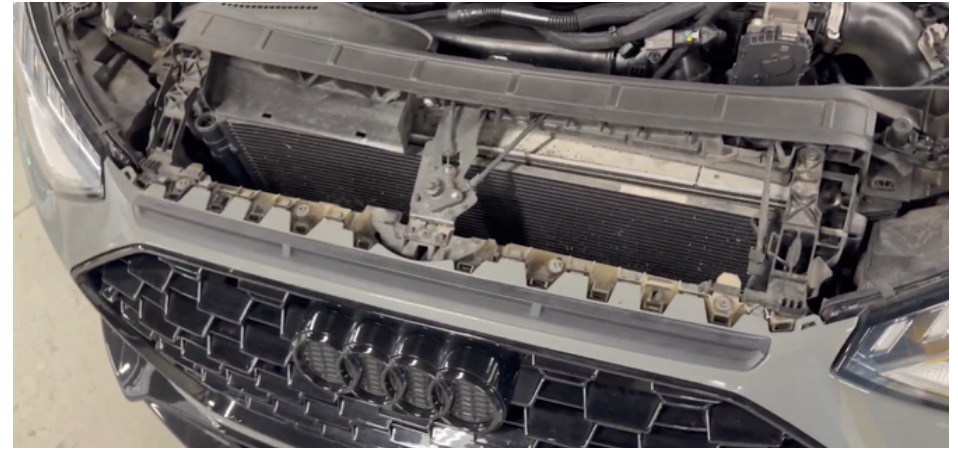

Use a trim tool to release the hood-latch handle, then pry up and remove the radiator shroud.

7

REMOVE THE BUMPER SCREWS

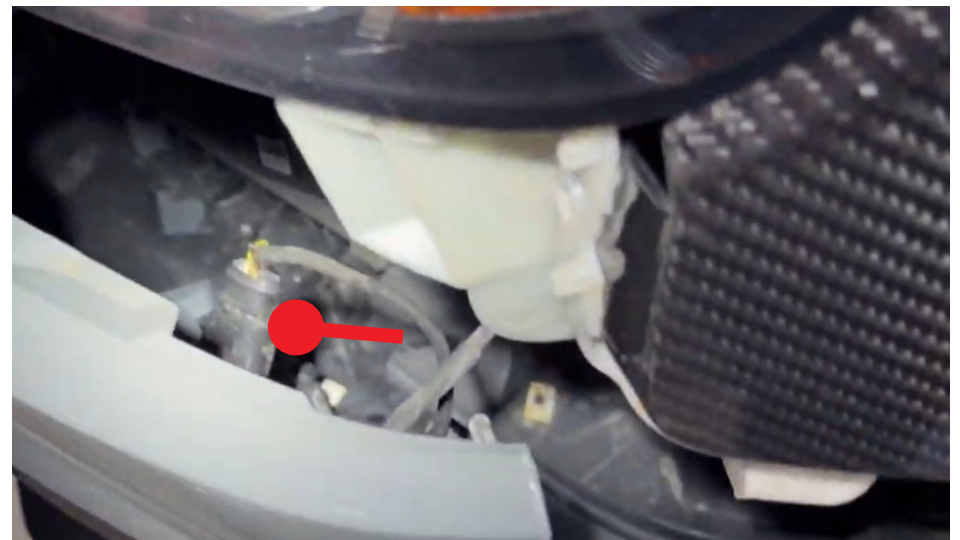

Remove the four screws located beneath the radiator shroud.

8

RELEASE THE BUMPER AND SENSOR MODULE

Pull the bumper outward from both sides, then release the centre.
On the driver side, disconnect the sensor module

Bumper - V1 - 2020-2025 B9.5 Audi
A4/S4

9

DISCONNECT THE CAMERA WIRING

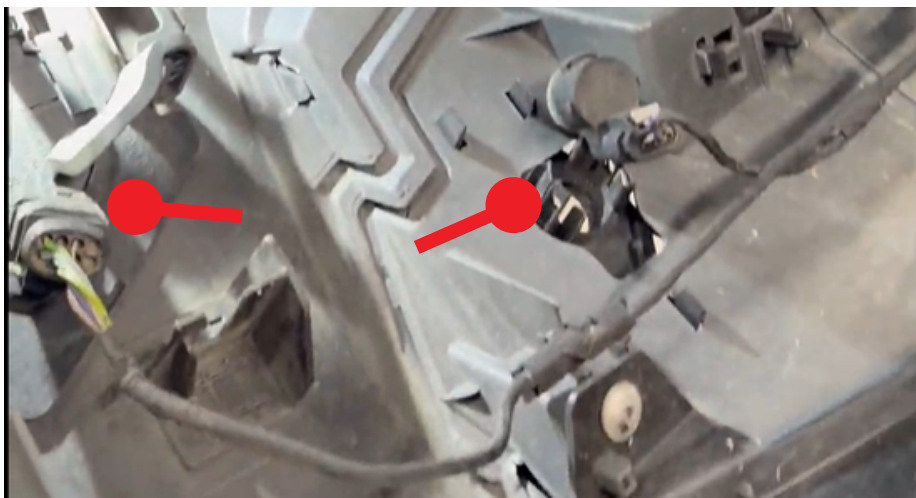

Disconnect the wiring attached to the centre of the bumper.

10

TRANSFER REQUIRED OEM COMPONENTS

Transfer the sensors from the old bumper to the RS4-style bumper.

11

REMOVE THE CAMERA MOUNT

Remove the camera mount from your current grille.

12

INSTALL THE RS4-STYLE GRILLE

Align the RS4-style grille with the bumper and secure it using four Phillips screws (each corner).

INSTALLATION GUIDE

CAP Front Bumper | B9.5 Audi RS4
Bumper - V1 - 2020-2025 B9.5 Audi
A4/S4

13

INSTALL THE HOLDER

Screw the rings holder into the grille in the orientation shown.

14

INSTALL THE ACC SENSOR PIECE

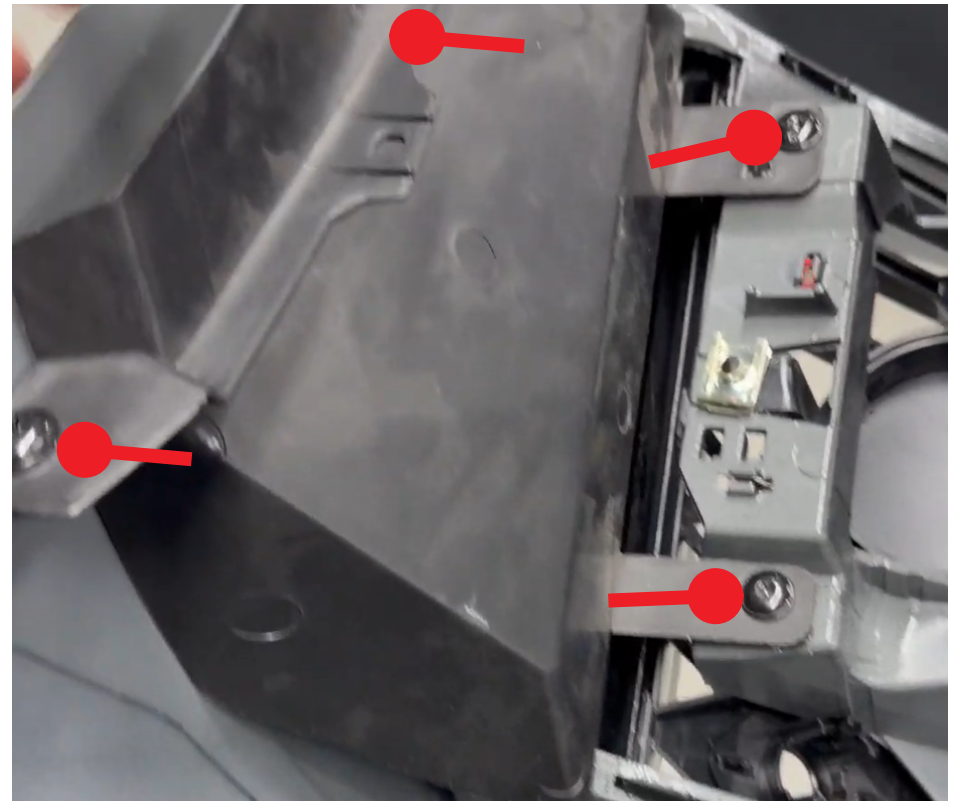

Click the ACC sensor filler piece into place and secure it with 3 T25 screws. ACC vehicles will use their required ACC component.

15

INSTALL THE AIR-DUCT BACKPLATES

Install the air-duct backplate on the inside of the bumper and secure it using four T25 screws. Repeat for the opposite side.

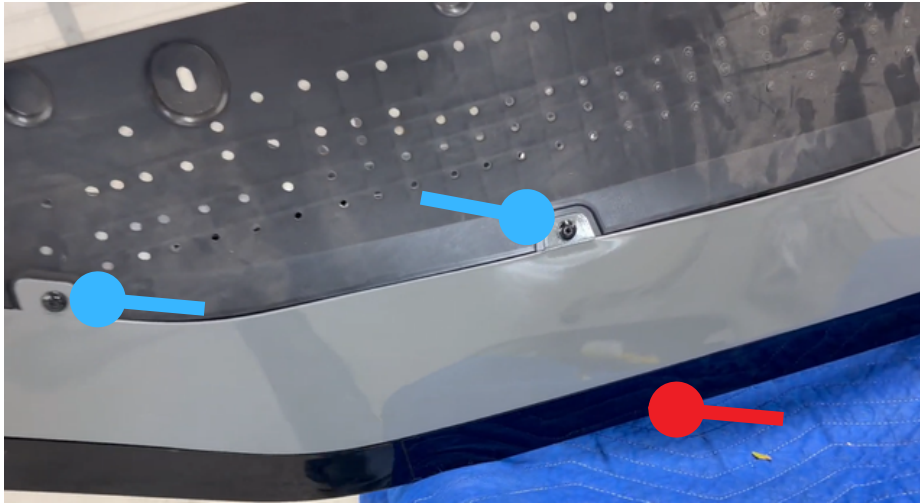

INSTALLATION GUIDE

Bumper - V1 - 2020-2025 B9.5 Audi
A4/S4

16

INSTALL THE UNDERBODY ITEMS

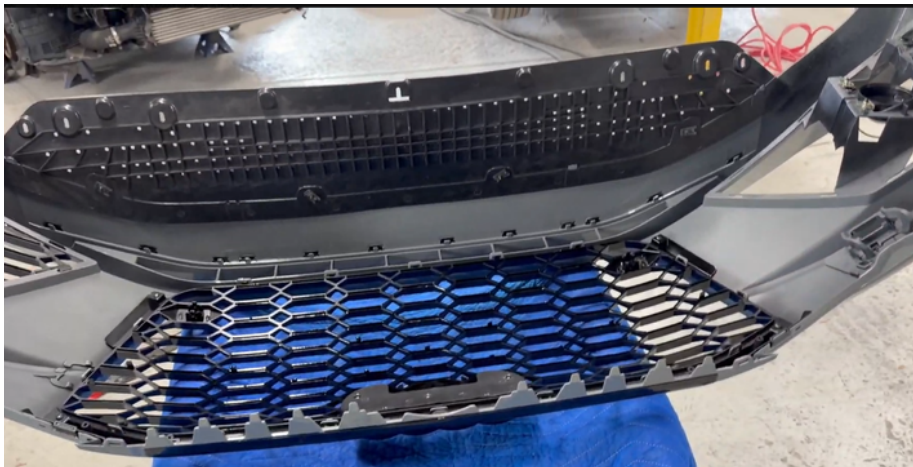

Attach the undertray to the bumper with four T25 screws (blue arrow). Clip the lip sides and centre pieces into the front (red arrow)

17

ASSEMBLY CHECKPOINT

Before continuing, confirm the grille, undertray, inner-lip pieces and backplates are fully seated and secure.

18

ROUTE THE SENSOR WIRING

Attach the sensor wiring to the bumper and install the sensor at the lower grille corners and below the fog grilles. Keep the sensor module on the driver side

19

INSTALL THE PLACEHOLDER SENSORS

Install the supplied placeholder sensor plugs on both top sides

Bumper - V1 - 2020-2025 B9.5 Audi
A4/S4

20

INSTALL THE FOG GRILLES (FG)

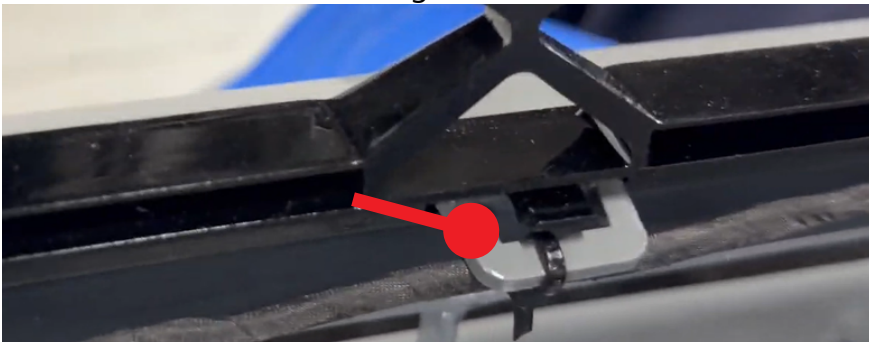

Press the fog grilles into both sides until all retaining tabs click into place. Install the duct covers on top of the FG

21

SECURE THE SENSOR HARNESS

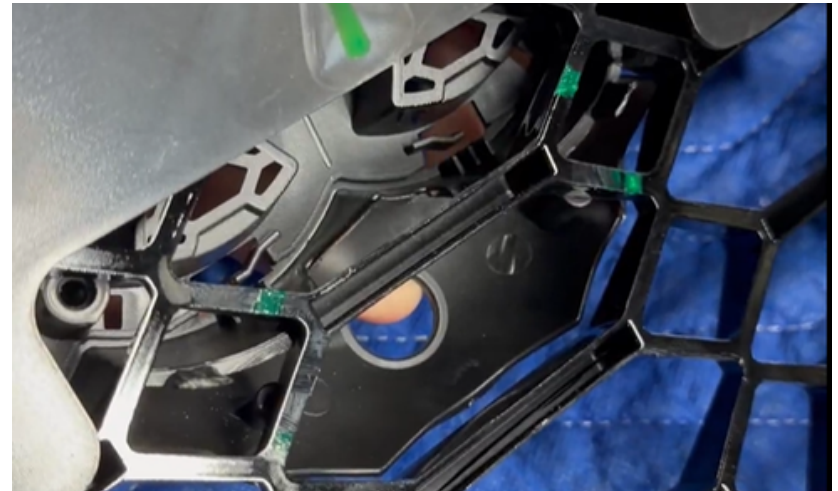

Use zip ties to secure the sensor wiring along the lower edge of the grille.

22.1

FIT THE OEM CAMERA MOUNT

Install the camera mount removed in Step 11. This will require trimming and to follow the green marks highlighted.

22.2

REMOVE THE HOLDER FOR TRIMMING

Remove the holder as required to trim the camera-mount area. Reinstall the holder after the camera is properly positioned.

A4/S4

23

INSTALL THE GRILLE BACKING PIECE

Clip the grille backing piece into position above the holder and secure it with eight T25 screws.

24

ATTACH THE BUMPER FILLER PIECE

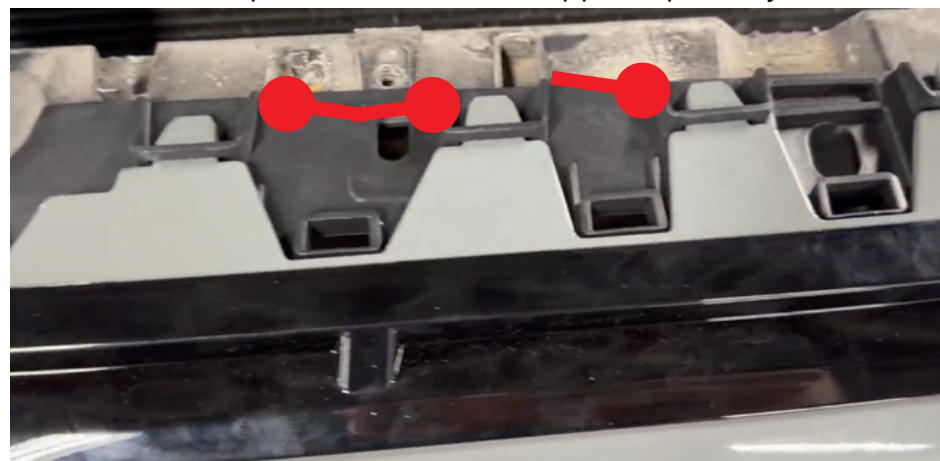

Attach the bumper-to-hood filler piece along the upper edge of the grille opening.

25

RECONNECT THE SENSORS AND REFIT THE BUMPER

Reconnect all wiring to the vehicle. Align the bumper sides, then the centre clips and confirm each upper clip is fully seated.

26

WORK BACKWARDS TO REINSTALL ALL REMOVED PIECES

CAUTION

Can Auto Performance is not responsible for any issues related to the ACC sensor functionality post-installation. Recalibration of the ACC sensors may be required if their position changes during installation.

All bumper-side clips and fasteners are installed on both sides.

Upper and lower bumper fasteners are reinstalled.

ACC / driver-assistance wiring is connected, supported and clear of sharp edges.

Radiator shroud and hood-latch release handle / trim are reinstalled correctly.

Fender liners are fully seated.

Wheels are reinstalled and wheel fasteners are tightened to the vehicle manufacturer's specification.
